

replica moschino bag

You're unable to make authorisation of transactions from merchants that are classified under the gambling merchant category code.

This applies to transactions made on an EFTPOS terminal and online.

Gambling and lottery transactions are identified by us based on the merchant category.

The category is determined by the merchant or their bank, and from time to time may be incorrect.

Are all gambling and lottery transactions restricted?

You'll continue to be responsible for these, and all charges on your card.

What to do if a transaction is declined but it's not related to gambling or lotteries?

If you believe that a transaction you made on your card was declined in error, please give us a call on 1300 150 300 and we'll investigate it for you.
